

AVIARY DIGITAL LAB RENTAL AGREEMENT

o You must know how to use all software, scanners, and printers (Photoshop CS6, Epson Flatbed V750 Scanners, Epson or Silverfast scanning software, Epson Print drivers, Epson 7900 and 4880 printers) that you plan to use during your rental session. Gallery attendants are not lab technicians and will not be available to offer assistance beyond getting you initially set up.

o You are required to pay for ink used when making all prints including final prints, work prints, test strips, and prints that are discolored due to failure to perform a nozzle check. Note that the ink cost for fine art and matte papers is higher because they use more ink.

o Aviary Gallery provides some photographic papers, however, the amount and type of papers offered is limited and you are encouraged to bring your own.

o Lab station rental is \$15/ an hour, \$75/ a day, and \$300 for a month's use. If you go over the time that you originally allotted for lab use then you are responsible for paying for the extra time used.

o You agree to leave the lab the way you found it. If equipment is damaged or broken you are financially liable for any damage to the lab equipment and space.

o Bring all supplementary materials you might need, such as canned air, negative sleeves, white gloves, etc. Aviary does not provide these materials.

o You are responsible for keeping track of all your files and negatives; Aviary is not responsible for any lost files or negatives. Please bring an external hard drive to save your files as we routinely delete files.

I agree to Aviary Gallery's Digital Lab Rental Agreement.
